

Sopra Steria

Sopra Steria, a European leader in digital transformation, provides one of the most comprehensive portfolios of end to end service offerings in the market: consulting, systems integration, software development and business process services. We are trusted by leading organisations to deliver successful transformation programmes that address their most complex and critical business challenges.

We have with over 30 years' experience providing applications design and development services to the public sector in Scotland, and have a strong heritage of female leadership, from our Newell and Budge roots with Ann Budge as CEO, to our current Director of Regional Government Alison McLaughlin.
